

# BRYAN WEEKLY EAGLE

AND PILOT

Published every Thursday by the Eagle Printing Co., Ed. E. Talmage, Editor; Arch B. O'Flaherty, General Manager. Member of Associated Press. Entered as second class matter, April 28, 1910, at the postoffice in Bryan, under act of March 3, 1879. Rates of subscription: One year, \$1.00, absolutely in advance; six months, 75 cents. Cards of thanks and resolutions of respect, 5 cents per line; other advertising rates on application. Active correspondents wanted. Daily Eagle every day except Sunday.

VOL XXXV.

BRYAN, TEXAS, THURSDAY, SEPTEMBER 13, 1917

NUMBER 52

## PAINLEVE DELAYED IN FORMING CABINET BY SOCIALIST ACTS

**Two Prospective Members of the Ministry Withdrew at the Eleventh Hour, He Told President.**

(By Associated Press.)  
Paris, Sept. 12.—Paul Painleve, minister of war, has announced that he is unable to form the new ministry to succeed that of Premier Ribot, owing to the eleventh-hour withdrawal of the socialists, Albert Thomas and M. Vafenne. He has so advised President Poincare who asked Painleve to continue his efforts. Painleve asked time for reflection.

## COMMITTEE SCORES THE HOUSTON POLICE

Houston, Sept. 12.—Criticism of police department and the suggestion that Superintendent C. L. Brock "is not qualified for the position he holds," are contained in a report of the citizens' board of inquiry following its investigation into the recent mutiny and murderous raid of negro soldiers which resulted in the death of 18 persons and the wounding of a score of others.

The committee does not attempt to fix the blame. It is stated, however, that "the riot was undoubtedly precipitated by the arrest of two negro soldiers" by the police.

Race prejudice and defiance of certain state laws governing negroes are mentioned as largely responsible for the trouble.

"Whatever and whoever may have caused the riot," the report states, "it is manifest that the rioters were bent on more than revenge upon the police officers. The undisputed and convincing testimony of witnesses, both whites and negroes, prove that they went forth to slay our white population indiscriminately. Not one negro was hurt or molested by them; not one negro home was fired into."

The negroes, it was stated, showed hostility and defiance of the state law requiring the separation of the white and negro races in the street cars.

The chief criticism directed at the police department is that certain of the officers were "unnecessarily severe" in their treatment of the negro soldiers. High praise is given the police for their efforts to quell the disturbance and for their valiant fight against great odds.

Attention was called to the fact that the "negro soldiers frequent sections of the city and those establishments where lewd and lawless elements of the negro population are to be found. These are the elements which the police force of Houston must watch and arrest, and it is probable that the soldiers heard from that source many stories of alleged oppression and injustice which fanned the flames of race prejudice."

Laxness of officers in charge of the negro camp is mentioned, and the belief expressed that the men's lack of respect for law was not surprising, since they were daily allowed to violate not only the civil laws but the emphatic regulations of the secretary of war.

### MRS. GOBINA BANJO DEAD.

Mrs. Gobina Banjo died in the Smetana community yesterday and the burial was held there this afternoon at 4 o'clock. Rev. Father Gleissner of St. Joseph's Catholic Church officiating. Mrs. Banjo was born in this country 29 years ago, the daughter of Mr. and Mrs. Frank Regmund, natives of the old country. She leaves a husband, several brothers and two children, one about three years old and the other a baby two weeks old.

## INDISPENSIBLE MEN CLAIMING EXEMPTION FROM ARMY DRAFT

**War Industry Cannot Get Along Without the Thousand and More Who Appeal to President Wilson.**

(By Associated Press.)  
Washington, Sept. 12.—More than one thousand claims for army exemption on the ground that the claimant is indispensable to a war industry, appealing to the president as the final judge of such cases, were on file today at General Crowder's office and others are coming in.

## AVIATORS KILLED IN AIR COLLISION

(By Associated Press.)  
San Diego, Sept. 12.—Edward M. Walsh, Jr., and Theo B. Liman, student aviators were killed when their planes collided five hundred feet above the ground.

**FERGUSON TESTIMONY.**  
(By Associated Press.)  
Austin, Sept. 12.—The previous testimony of Governor Ferguson, including the March investigation, was introduced today.

## Many Fine Addresses Teachers Institute

Monday, September 10, the white teachers of Brazos county public schools were called together at the East Side High school by County Superintendent Powers for a week's work in the regular session of the county institute.

The necessary officers were elected and organization perfected. The work of the institute is divided into two phases, the general session and the sectional meetings.

Prof. A. H. Leidigh gave a very able, scientific address on the soils of Brazos county and "Soil Improvement." This lecture was partly delivered on Monday and finished Tuesday. Rural teachers should be able to do more for their communities after listening to this address.

A word of encouragement was brought from the state superintendent by Mr. Paugh of the department of education.

Tuesday the teachers were called to order by the chairman, F. Kadanka. Aside from the regular program they had the pleasure of listening to two highly profitable lectures by Dr. H. F. Musselman. The first subject discussed was "Building Our Educational Program on a Life Basis." This subject was presented from the seven aspects of hunger for food, hunger for health, hunger for knowledge, hunger for fellowship, hunger for achievement and hunger for the unseen.

The afternoon's program was completed by Prof. Leidigh, who finished his subject of "Soil Improvement."

Tuesday evening they had the pleasure of again listening to Dr. Musselman at the Baptist church on the subject of "The Public School and the Future of Democracy." H. H. Richardson, reporter.

### COUNTY COMMISSIONERS.

From Monday's Daily Eagle  
The county commissioners began their monthly session today. Several important matters are to come up, among other details on the court-house improvements, road and bridge building, a petition for a new road in the western part of the county and sundry other things.

### COTTON RECEIPTS.

Farmers Union warehouse 1103, Lawrence 1772, Brick 1362, total 4237.

## KAISER WILL ACCEPT PRINCIPLE IN THE POPE'S PEACE NOTE

**It Will Not, However, be Submitted to the Main Committee of the Reichstag.**

(By Associated Press.)  
Amsterdam, Sept. 12.—The Weser Zeitung says the German reply to the Pope's peace proposal will contain no details but will accept in principle the Pope's peace program. The paper adds that the reply will not be submitted to the main committee of the Reichstag.

### LORD READING ARRIVES.

(By Associated Press.)  
At an Atlantic Port, Sept. 12.—Right Hon. Viscount Reading, lord chief justice of England, arrived here today on an American ship from Great Britain, accompanied by Lady Reading.

## COL. CRANE BACK WITH OLD COMMAND

Col. C. J. Crane, U. S. Army, retired, the new commandant of cadets at the Agricultural and Mechanical College of Texas, has had a wide range of service since he was first detailed by the war department as commandant at the Texas A. and M. thirty-five years ago. At the time of his first detail at College Station, 1881 to 1883, Col. Crane was first lieutenant of the Twenty-fourth Infantry. From here he was ordered to Fort Sill, Indian Territory, and in 1892 was promoted to captain and transferred to Fort Byard, New Mexico. At the beginning of the Spanish-American war he organized the Ninth U. S. Infantry Volunteers, composed of negroes from the lower Mississippi valley and from the Gulf coast states. These troops were called the "Immunes" because it was believed they would be immune from tropical diseases. However, there were many deaths from yellow fever and other epidemics prevalent at that time in Cuba.

After his volunteer regiment was mustered out of service, Col. Crane was again detailed to the Twenty-fourth Infantry and was stationed at San Francisco. In 1899 he was ordered to the Philippines where he remained three years. During the period he served as brigade inspector at Baco, lieutenant colonel of the Thirtieth Infantry, and adjutant general at Iloilo, Panay and, at Cebu. On being transferred to San Francisco he was promoted to major of the regulars. Later he was stationed at Governor's Island and promoted to lieutenant colonel. From 1903 to 1905 Col. Crane commanded the Porto Rican regulars. Returning again to the states he was made military secretary of the northern division. For four years, until 1910, he was detailed to Fort Sam Houston as colonel of the Ninth Infantry. For the past seven years Col. Crane has lived at Cebu, Philippines Islands; Fort Thomas, Ky.; Laredo and San Antonio, Texas. He was retired in April, 1916, but four months ago he was recalled to service and placed in command of the recruit camp at Fort Sam Houston.

Col. Crane has two sons in the army. Capt. J. M. Crane, stationed at Fort D. A. Russell, Wyoming, and Capt. W. C. Crane, a former cadet at the Texas A. and M., now instructor at West Point.

The commandant and Mrs. Crane are now at home on the college campus.

### COTTONSEED THEFTS.

From Monday's Daily Eagle  
D. Tate, Dave Jones, Jeems Caldwell, John Walker and James Robinson were arrested by members of the sheriff's force Saturday and a charge of theft placed against them. The case is a misdemeanor in that they are charged with having stolen cottonseed to the value of \$45.70 from the gin of John McCallum at Tabor and brought to Bryan for sale. The seed was stolen during the night and carried to a wagon about five hundred yards from the seed house, the seed being scattered along the route so that it was easily traced. The men were captured before they had disposed of the seed.

### EVA A. LOFTIN DEAD.

A certificate of death of Eva A. Loftin, aged 2 years and 11 months, was filed Tuesday by Dr. W. A. Smith of Millican with County Clerk Ferguson. She died August 29.

## KILL OR CAPTURE ALL GERMANS IN TRENCHES TAKEN

**French Made a Night Assault in the Region of St. Souplet and Made a Clean Sweep.**

(By Associated Press.)  
Paris, Sept. 12.—French troops last night attacked the German trenches in the region of St. Souplet in the Champagne district and succeeded in smashing the first two German lines and entering the third position. All the German troops garrisoning these trenches, the war office announces, were either killed or taken prisoners.

### Germans Repulsed.

(By Associated Press.)  
London, Sept. 12.—The Germans attacked the British trenches east of Hargicourt but were met by rifle and machine gun fire and repulsed, it is announced.

## TO DRILL FOR OIL ON WIXON CREEK

**Blanche L. Association Formed by J. D. Adams and Associates on Basis of Leases on 957 Acres.**

With County Clerk H. O. Ferguson there have just been filed a number of leases of oil land running to J. D. Adams and an agreement and declaration of trust of J. D. Adams, J. P. Douglas and Frank Sievert, subscribers, trustees and organizers of the Blanche L. Petroleum association. The association is organized with a capital stock of \$25,000, half paid in by the conveyance of six oil leases, covering 957 and three-fifths acres of land in Brazos county. The remaining \$12,500 is to be divided into certificates of \$5 each and sold. The purpose of the association is to conduct any lawful business not prohibited by Texas laws, but especially the production of oil, gas or other minerals, to own, erect and operate tanks, cars and pipe lines necessary thereto. The fiscal year of the trustees ends on the second Monday in January of each year, at which time annual meetings shall be held. The trust is to continue for ten years, at which time the affairs of the association shall be wound up unless otherwise voted.

The leases mentioned in the agreement are as follows:

From J. C. Cloud and wife, 78 acres in the R. S. Benson survey.  
From Chas. Wisniewski and wife, 401 acres of the A. McLaughlin, R. Perry and W. C. Boyles surveys.  
From C. O. Crenshaw, 50 acres of the R. Perry survey.  
From W. H. Hurt and wife, 50 acres of the Thomas Spence league.  
From J. R. Smith and wife, 142 acres of the A. M. McLaughlin survey, 12 acres of the W. C. Boyles survey, 2 and one-half acres of the A. McLaughlin survey.

From T. P. Hall and wife, 90 acres of the R. Perry survey, 51 and three-fifths acres of the A. Lee, Sr., survey. The leases are based on an eighth royalty of all oil produced, and four cents a ton for coal. Drilling is to begin within a year from May 2 and May 4 and in case of finding gas, oil or other minerals the leases are to be in effect for five years from date of discovery and as much longer as oil, gas or other minerals can be produced in paying quantities.

The land is about seven miles east from Bryan on the Steep Hollow and Reliance roads, on Wixon creek.

## Hobby Not Inclined to Repeal the Laws

(By Associated Press.)  
Austin, Sept. 10.—According to present indications there appears to be little chance for the repeal of the laws creating the new state educational laws in Texas. Acting Governor Hobby, to whom a petition has been presented by the lawmakers asking that he submit for repealing these statutes, it is said, does not feel inclined to grant the request, not wishing to disturb laws passed at previous sessions of the legislature.

Attorney General Looney has held the creation of these new educational institutions by the legislature, was within the constitutional authority vested in the lawmaking body.

## GERMAN GENIUS IN MILITARY MECHANICS BUT ARE LACKING

**They Have Repeatedly Shown Deficiency in the Knowledge of Human Nature, Says Andrew Bonar Law.**

(By Associated Press.)  
London, Sept. 12.—Andrew Bonar Law, speaking at a luncheon given by the Empire Parliamentary association to Medill McCormick, the Illinois congressman, said:

"In everything connected with the military arms the Germans have shown remarkable results, even genius, but in dealing with questions of human nature they have repeatedly made mistakes which have been the salvation of the allies." Their greatest mistake, he said, was driving the United States into the war.

## DALLAS COUNTY DRY BY 1500 MAJORITY

Dallas, Sept. 11.—Final figures of yesterday's election show dry 10,516, wet 8,564. The saloons will close October 20.

Dallas, Sept. 11.—Dallas, the most populous county in Texas, voted "dry" in a local option election Monday. With but six precincts missing out of 96, the prohibitionists have a lead of 1500 which the missing precincts can not materially change.

About 19,000 votes were polled out of a registration of 28,000.

### Efforts at Fort Worth.

Ft. Worth, thirty miles from Dallas, is to hold another local option election October 1. One strong argument advanced by business men in both cities was that prohibition would not be cordially supported by the business men of either city as long as one or the other remained wet. Now that Dallas has gone dry, it is expected that the pathway will be cleared in Ft. Worth for support of the business men there and that Dallas business interests as well as all other interests will not only give moral assistance, but physical and financial aid to the attainment of a decisive prohibition victory in Ft. Worth.

### Gonzales Votes Dry.

E. L. Parks received a telegram Monday evening stating that Gonzales went dry in Saturday's local option election.

## THIRTY SLACKERS CAPTURED AT SEA

San Diego, Sept. 12.—Escorted by a United States warship that captured her off the lower California coast Sunday, the gasoline schooner Anvill, with more than thirty alleged draft evaders and enemy aliens aboard, arrived here this morning.

## Grain Corporation Chartered in Texas

Austin, Sept. 12.—Permit to do business in Texas was Tuesday granted by the secretary of state's department to the Food Administration Grain corporation, chartered under the laws of Delaware, with headquarters at Wilmington, and a capital stock of \$50,000. Texas headquarters are to be at Galveston. The charter declares that the corporation was formed in accordance with an executive order issued by the president of the United States August 14, 1917, to encourage production, conserving the supply and controlling the distribution of food products and fuel. Incorporators are: Herbert Hoover, Edgar Rickard and Curtis H. Lindley of Washington, D. C.

### CALL FOR 86 MEN.

From Tuesday's Daily Eagle  
The adjutant general's office called today upon the Brazos county exemption board for 86 white men. The call was made by telephone and Chairman Arrington informed them that the board could not furnish them until they heard from the district board and learned what disposition had been made of those who sought exemption. However, the local board has 46 white men who have passed the physical examination and have made no claim for exemption. These were tendered but the adjutant general has not yet accepted them.

## KORNILOFF IS CORNERED SAYS FINANCE MINISTER

**Associated Press Informed That Kerensky's Opponent Has Been Outmaneuvered by Loyal Troops and His Retreat Cut Off--Bruyovitch Made Commander-in-chief of the Army.**

(By Associated Press.)  
Petrograd, Sept. 12.—Kerensky is about to assume the position of commander-in-chief of the Russian armies, the Associated Press is advised.

## TABOR PUPILS GET SHORT CUT TO SCHOOL

**Commissioners Authorize a New Road--Bids for Work on Court House -- Democrat Crossing Work.**

The school children of the Tabor school are to be inconvenienced soon by the official opening of a new road from their homes to the school building that will cut off several miles which they are now compelled to travel unless they go through private grounds and open many gates. The county commissioners, upon petition of the people, went out as a jury of view Tuesday afternoon and granted the petition after getting an understanding of the proposition. The purchase of a few spools of barbed wire for fencing and the construction of a couple of small bridges all at a cost of about \$200 will be the county's part, the right of way being given free to the county. The road starts on the Tom Walker place on the Wheelock road and ends at the school house.

The commissioners have authorized the county judge to advertise for bids for the overhauling and repair of the courthouse. Bids are to be received at 9 a. m. on October 8, and opened at 10 o'clock on the same day. The work contemplated is the complete overhauling of the building and repair for the first time since it was constructed, thirty-five years ago, and its modernizing with steam heat, adequate sewer connections and equipment, the establishment of a rest room for women and the repairing of the walls and woodwork. In letting the bids it is proposed that contracts for the plumbing, heating, wiring and possibly the painting will be let separately.

Commercial club money has been expended to good advantage by Brazos county in doing work on the Grimes county side of the Navasota river at the Democrat crossing on the Madisonville road. One large bridge eighty feet long and three smaller ones have been constructed of oak timber obtained from the S. B. Cox mill in Brazos county and the grading has all been done at a cost to the club of about \$300. A good job was made of it, too.

Report was made to the court on the work on the road to the Ferguson crossing. The whole road gang is at work on this road and the work will be completed in about four weeks. It involves the building of about three oak bridges, the placing of clay on about two miles of sand road and the sanding of considerable clay road, besides grading and draining the road. The hands to work this road have been ordered out, and bids are being received for the work on the Grimes county side, which will be paid for by the commercial club.

E. J. Fountain, Jr., applied for and was granted a certificate of good character. He will apply for the right to practice law in this state.

## ARGENTINE HAS SENT LUXBURG PAPERS AND DEMAND EXPLANATION

**German Foreign Minister is Asked to Tell Why the Count Sent Secret Code Messages.**

(By Associated Press.)  
Buenos Aires, Sept. 12.—The Argentine government has sent to the German legation passports to be delivered to Count Luxburg, German charge here. The whereabouts of Luxburg are unknown to the Argentine government.

In a communication to the German foreign minister, the Argentine government demands an explanation of Luxburg's action in sending secret code messages to Berlin through the Swedish legation.

## RIGA PRISONERS.

(By Associated Press.)  
Berlin, Sept. 12.—The Germans captured 8,900 prisoners in the battle of Riga. It is officially stated.

## BRITISH CASUALTIES.

(By Associated Press.)  
London, Sept. 11.—British casualties for the week ending today are 626.

## BRYAN COTTON RECEIPTS.

Brick warehouse 1407, Farmers' Union 1136, Lawrence 1850, total 4,393. Bryan spots, basis middling, 20 one-fourth cents.

## Intelligent Effort Rewarded

One Bryan business firm on yesterday sold a bill of goods to north Grimes county parties totaling more than \$200. They made the trip here by automobile.

This business was the direct result of improving roads and bridges and other advertising.

Shall we stop here, or shall we go further --until Bryan is the recognized trade Mecca of this section of the state?

## Bargain Offer to Business Men

Having bought a considerable job stock at a bargain---and having further reduced the cost by paying cash and taking the discount---the Eagle Printing company will make a 15 per cent reduction on all letter heads, bill heads, statements and other stationery of this description.

This bargain offer is inaugurated today and will continue as long as the stock lasts.  
Phone No. 36.

# EDITORIAL DEPARTMENT OF THE BRYAN WEEKLY EAGLE

## The Swedes and the Germans

In recent numbers of a popular American magazine a serial story was run in which American intrepidity, doggedness, strength, ingenuity perspicacity and a few other traits were pitted against the scheming and conniving of a tremendously rich Swedish corporation. A New England paper manufacturer saw the writing on the wall and the possibility of taking advantage of the market and raking in a few millions, providing he could get the wood for pulp. Opposing him was the big Swedish corporation with more money than he had, more hired devils and much political power derived from bankers who think only of dollars and in terms of dollars, forgetting that they ought to be patriotic besides on the Fourth of July and Thanksgiving. Eventually the Americans won and through the aid of an American Scotchman, who might have been Andrew Carnegie, but who backed them not so much with money as with his credit of millions. It took American nerve backed by American indomitability to bring the old fellow around, but once converted to the American cause the rest was easy.

That story may not have been all pure fiction. It read as if it might have happened. As we have known in a general way since the war started, the Scandinavian countries have been commercially allied with Germany, and it was largely through imports from the United States to the Scandinavians, as well as Holland, Switzerland and for a time Italy, that the Germans were supplied. It was another blunder of Germany to force the United States into the war, for had she had as much foresight as a blind mule on a dark night she might have expected that the highways through which she received goods would be closed to her and closed tight, just as soon as the United States could get the machinery in working order after a declaration of war. Now that the United States has declared war she has included in her warfare an embargo on exports, and one of the greatest kickers against that embargo is Sweden, although the other countries seem to have made objection, but more as a matter of form. Sweden has been inclined to be nasty about it. As always happens when some person or some nation make an undue fuss suspicion is directed against them. This may or may not have led to the investigation which has brought to the United States department the cipher cablegrams sent to Berlin through the Swedish diplomatic sources, supposed to be inviolate. These cipher messages were delivered to the Swedish minister in Argentina and by him sent to Sweden and thence to Berlin. In them he called the Argentine foreign minister "an ass" and told of the sailing of Argentine steamers and what to do about them. He misused his position as a guest of Argentina and at the same time dragged Sweden into the mess. And it is likely that Sweden went willingly enough, as it is quite well known that she has had leanings toward Germany since the war began, due to the fact that the queen of Sweden is German. The people are said to be unfavorable to the German cause. Hence, the story of the paper mills might be not so far from fact, after all.

The effect of the revelations by the United States state department have brought forth a string of denials, but it seems that Secretary Lansing is as confident as a bull dog with a bone that he can hold his position. He appears to have been able to secure the cablegrams that were sent and to have the cipher whereby they could be translated and the translations put before the people of this country and representatives of Sweden and Argentina. The representatives of Sweden in this country of course deny the truth of the revelations. Being several thousand miles from home and from Argentina that is to be expected, but nevertheless it will have the effect of strengthening the determination to enforce the embargo not only against Sweden, but against all neutrals. None knows to what extent the machinations of the German ambassadors, big and little, may go, particularly since those who represented Germany in this country abused their privileges as guests in the manner they did, and since they have abused the same privileges in Argentina.

Another effect that is expected will be to estrange Argentina from Germany. It has been regarded as a Germanic country commercially, and many German houses have branches there and much German trade has gone to that country in the past. But while Germany was apologizing to Argentina for having sunk her vessels and promising to do so no more the German representatives were using the Swedish embassy as a speaking tube to the German foreign office in Berlin, telling them how to sink vessels. It is no wonder that Argentina was saddened beyond ability of expression Sunday. The usual gaiety was absent, the dancing girls could not rouse the populace to smiles and laughter. They felt that through a dastardly trick the Germans had played in bad faith with them.

Still another effect of the revelations may be to further cement the growing friendship between the United States and Argentina. Since the war started the United States has endeavored to change the trend of trade from Europe to this country and has succeeded in doing so, because the South Americans had nowhere else to go in the first years of war, when German shipping was bottled up and France and England were busy readjusting themselves to the conditions brought on by the war.

Whether Argentina will sever diplomatic relations with both Germany and Sweden is yet to be seen. It is doubtful if that course will be pursued. But German duplicity, unless drastic measures are taken against it, will be repeated, and in the end Argentina may be forced to line up with the allies, at least as Brazil has done.

Our attitude toward Sweden need not be changed unless Sweden insists that it be changed. Sweden dislikes our embargo and may find cause for war or the severance of relations therein. That, however, would not benefit her, and would enable us to better enforce the embargo against that country and her ally, Germany.

Norway and Denmark are not thus far involved. That they have been supplying Germany with American goods is naturally supposed. That was their right and privilege to do as long as they could get the goods to deliver. But the United States will give them sufficient for their own needs and no more. It will kill a very profitable business with Germany for the term of the war, but it need not bring about the heated protests that have come from Sweden. The United States is acting within its rights, also, and is determined to use every means to bring the war to a successful termination.

## We Cannot Sing Our National Airs

A couple of items in the morning papers yesterday reported the shipment of large numbers of pianos, each to two of the training camps of the national army. Other camps may be similarly supplied.

Magazines are printing pictures and advertisements of phonographs to be used in the trenches.

Some Englishman has invented what must be a sort of toy piano which can be carried from trench to trench without much discomfort or inconvenience.

Bryan is talking of organizing a band. A new musical director has been secured for the Bryan Baptist Academy.

These are items expressive of the musical temperament of the people, yet not many Americans have patience enough to continue the study of music until they attain that proficiency in the art which is second nature.

But the saddest part of our musical temperament is that we do not put it to public use. We do not know the patriotic songs of the nation. Our soldier boys, who should know these songs by heart, cannot, as a rule, repeat more than one verse of any of them, and they are not sure of themselves even on that one verse.

Much as we praise the Texas Agricultural and Mechanical College as a military school we doubt if there is any mass singing by the boys in chapel exercises of the national airs except on thanksgiving day. What is meant is that the boys are not trained in these songs as part of the military training and consequently there is no singing.

It is to be hoped that the pianos, phonographs and bands will lead the way to an improvement in mass singing in the army, for, as the commandant at Camp Travis says, "the singing army is the winning army." Song lightens the heart and when the heart

is light the burden is light. It was a hypochondriac who wrote that song, "I am saddest when I sing." The chances are that the neighbors were also saddest when he sang. Anybody who is sad when he sings is out of comfort with humanity.

It is for that reason our national songs should be on every tongue now, and we should be so stirred by the music that we cannot resist, if we would, the singing with full voice of the songs the bands may play. A canary will nearly burst his throat in song in an effort to accompany a pianist. We ought to be as responsive to music and patriotism as the canary.

As the Eagle has stated previously, those who have charge of places of public assemblage are to blame largely for the fact that our people know the patriotic songs so poorly, and that we are sending away a lot of boys not taught to sing en masse and who do not know the national airs. The churches indulge in song, but not much in patriotic song except on thanksgiving day. The schools indulge in nursery songs and the older pupils feel too dignified and conscious to engage in song. Students in college never sing except the hymns announced in chapel, the music set down in the curriculum of the department of fine arts and the comic songs of the glee club. We do not sing the patriotic airs in the home. We do not sing them any place habitually.

Perhaps a better condition is coming. Possibly the boys in the camps will be taught the national airs and come home and teach them to us. It may be these pianos and phonographs will lead to the teaching of national airs. If it does not it will be because the army instructors take it for granted that the boys know the songs, when as a matter of fact not one in a hundred can repeat or sing any one of them completely.

## WHAT EAGLE FILES TELL OF OTHER DAYS

(Twenty Years Ago.)

Mrs. W. G. Taliaferro went to Cameron Sunday in response to a telegram announcing the illness of her husband, Judge Taliaferro.

Ed Covey and Houston Cole returned a few days since from a week's visit to Galveston.

Appreciating his strength of character as a man and his worth and ability as a pastor, the First Baptist church of Bryan last Sunday extended an unlimited call to Dr. W. C. Friley.

The mother and aunt of Dan Ewing the negro recently adjudged insane and now in jail, were here yesterday endeavoring to secure his release. According to her own story the aunt of Ewing is rather a remarkable woman herself. She claims to be able to heal by rubbing and was admitted to the jail to practice on her nephew yesterday. She says she has been the mother of triplets five times and the grand mother of four once. Her name is Mrs. Sallie Gaston and she resides at Navasota. She was born with six teeth and has never lost those six, although all the others have decayed. Judge Hudson declined to let Ewing be removed without bond.

The council met in called session at 3 o'clock yesterday afternoon. Those present were Mayor Adams, Secretary Carr, Aldermen Haswell, Howell, Wyse Alderman elect Tabor, Marshal Shelburne and several spectators. The minutes of last meeting were read and adopted. Judge Hudson administered the oath of office to Mayor Adams and Alderman R. G. Tabor, Mr. W. E. Saunders declining to qualify. Sunday bills were ordered paid. Adjourned.

The campaign is warming up. Politics has made a widow and three small orphans at Hempstead already. Do not let your angry passions rise. A mad man can do more harm in an instant than he can repair in eternity.

R. B. Goshy has called a meeting of the 7th district republican congressional convention at Waco September 5, to nominate a candidate for congress and a presidential elector from said district.

Several handkerchiefs blessed by Schrader arrived here in the mails yesterday. They were addressed to different Bryan ladies and the envelopes in which they were sealed bore a picture of the healer in one corner.

T. P. Boyett, W. C. Boyett and Cecil Rhodes have returned from a hunt in the big thicket with parties from other points. They report the killing of fourteen deer besides a large amount of small game and plenty of fish.

A barbecue occurred yesterday at the plantation of James O. Chance in the Brazos bottom. A number of persons were in attendance from Bryan.

On his rounds in the search for news these days about all the reporter discovers is half a dozen championship domino games which apparently never end.

We have the handsomest line of fine lamps in Bryan. See them if you are looking for a present. Sam B. Wilson & Company.

The Priscilla club met yesterday afternoon at the residence of Mrs. J. W. Doremus. Eighteen ladies were in attendance, the occasion being one of the club's monthly receptions. Refreshments, agreeable alike to the season and the palate, were daintily served.

Mrs. Kennedy, mother of Mrs. John Daly and Mrs. M. Bonneville, Jr., returned to New Orleans yesterday.

Don't fail to assist the ladies of the Christian church by patronizing the strawberry and ice cream festival at the residence of Mr. R. J. Ford this evening.

W. B. Ragland of Waco, and R. G. Tabor, M. H. James, Jno. Q. and Dr. Geo. R. Tabor returned Monday night from several days hunting and fishing at Hall's lake on the Navasota river. They report good luck and a pleasant trip in spite of wet weather.

Yesterday morning we offered 25 of our ladies' beautiful visiting cards free to the first lady bringing or sending the clipping containing the offer to the Eagle office. The ad was set in ordinary display type and printed without choice of position. The first call for the cards came from Miss Leane Waldrop. A few minutes after seven o'clock a. m. she sent the clipping in and by 9 the cards were delivered. This shows that the Eagle ads are all read. Watch them closely. They often contain matter of special interest.

Seth Mooring is now at Webb Bros. and will be pleased to see his friends and the public.

Harry Levy of Navasota, accidentally fell from a second story window of the bedroom of his cousins, Samuel and Julius Levy, Saturday night. His fall was broken by light wires and for-

tunately he sustained no injury besides the dislocation of his left thumb. He returned to Navasota Sunday.

Mrs. W. E. Saunders, Miss Allie Saunders and Miss Sallie Johnson returned yesterday from spending the summer in Virginia.

Mrs. J. W. Cavitt and daughter, Miss Sadie, returned home from Virginia yesterday.

Walter Coulter has graduated from Eastman Business College, Poughkeepsie, N. Y., and will return home in a few days to assist his father in business.

Since prohibition went into effect at Caldwell a transfer line has been established, running from the depot through the heart of the town to Struens saloon two and one half miles in the country, and the band plays on.

A most beautiful collection of high art China painting may be observed in Mr. Tyler Haswell's store window. The work is that of Mrs. Mary E. Carr, and it proves conclusively that she is in every sense a finished artist.

A large party of Bryanites left yesterday for the B. Y. P. U. and Baptist state Sunday School convention at San Antonio. Those in attendance are: Dr. W. C. Friley, Misses Willie and Mittie Friley, Eugene and Miss Lillian Parks, Misses Emily and Dee Tabor, Adelle Weddington, Cora and Davie Zulch, Hattie Webb, Mr. and Mrs. H. A. Burger, Misses Elmer Harbers, Lillie Peacock and Tillie Walker, and Powell Winter.

R. H. Seale and John Wilcox were here yesterday to buy lumber. They secured the Conway gin at Benchley and are overhauling the plant and putting in new machinery for use during the approaching cotton season.

R. M. Gordon left last night for Mississippi in response to a telegram announcing the illness of his sister.

Wanted—A colored married woman wants to accompany a white family to Wooten Wells and will wait on them for the privilege of getting water to drink. Address Z Y X, care postoffice.

Mr. and Mrs. H. O. Boatwright and children returned from a visit to Llano and Austin yesterday.

Capt. S. M. Darden and daughter, Mrs. John P. Chance and children, have gone to Virginia to spend the heated term.

Mrs. Nellie Whitfield, who has been visiting Mrs. Eugene Bonneville, came up from Galveston yesterday and will return home today to Terrell.

Mrs. Catherine Spell returned from Durant Station, I. T., and reports fine rains in that section. She witnessed a cyclone while there.

The ladies of the Baptist church will give a tea at the residence of Mrs. J. C. Williams Friday afternoon from 3 to 6 o'clock.

The chemical engine recently ordered for the fire department has arrived and is a beautiful 55 gallon single tank machine. It is now in service and is ready for use at a moment's notice. It will be publically tested shortly.

The Parker building on Main street is going up rapidly, work on the second story is already underway.

Tom Hensarling was here yesterday and told the Eagle man that his brother Phillip who was recently very ill, is improving rapidly.

## JURY FOR FIRST WEEK.

The jury for the district court next week is to appear Tuesday, September 18, and is as follows:

W. O. Sanders, R. Q. Williams, W. O. Hearne, W. C. Bailey, Chas. Payne, A. M. Hartsfield, J. E. Hensarling, C. M. Cole, W. S. Martin, Will Payne, C. H. Holmes, J. W. Fuller, J. W. Burrows, J. S. Whitten, Robt. Davison, J. D. Goen, W. L. Shurman, J. L. Lloyd, Geo. Henry, Willie Henry, John S. Smith, W. D. Lloyd, T. C. Elliott, E. M. Boggs, S. E. Locke, W. H. Smith, Walter Lowry, W. G. Grooda, J. H. Morehead, Y. C. Watson, K. L. Spiller, M. P. Mims, R. L. Wilson, C. W. Carroll, Albert Payne, J. D. Martin.

Ring G. D. Tucker for all kinds of feed. He sells for less.

\*\*\*\*\*

Don't Turn  
Flip-Flops

at night because of that disagreeable Eczema. If the skin is dry and scaly, get a jar of Dry Zensal. If there is a watery eruption use Moist Zensal. Relief in every jar, and a good night's rest is yours. Drop in today and let us tell you about it.

THE SMITH DRUG CO.

## WHEAT CONSERVATION URGED UPON PEOPLE

To the Patriots of Brazos County; Inasmuch as the chief work before the state council of defense and the various county councils of defense of the state of Texas is to aid in the production of food supplies and the conservation of same during the continuation of the war, and, that the wheat crop of the United States this year is not of sufficient volume to supply a normal demand for food and seed and leave an exportable surplus of sufficient quantity to take care of our allies in Europe until another crop is grown, it is of the utmost importance that every patriotic citizen of Texas aid in conserving the wheat supply of Texas until a new and larger crop is produced in 1918.

If each housewife in Texas and the United States could substitute other bread for wheat bread only one day in the week, it would result in conserving 70 to 75 million bushels of the 1917 wheat, which would be added to our exportable surplus and therefore materially aid our allies in the great conflict in Europe.

If each family in that part of Texas where rains have fallen could again produce war gardens as was done in the spring, a very large per cent of the limited wheat supply grown in Texas this year could be saved and in doing so a patriotic service will be extended to the government. We, therefore, urge that each county council of defense aid in every way it can—first, in conserving the wheat supply, and second in stimulating the growth of war gardens in that part of Texas where rains have been had.

Yours truly,  
E. J. FOUNTAIN, Chairman.  
F. L. HENDERSON, Sec.

NOTICE—FRIEND IN NEED.  
You are notified of the death of Mrs. J. H. White September 3. Assessment must be paid to Joe B. Reed within ten days. D112w2

BUCHU KIDNEY PILLS  
NORMALIZE THE KIDNEYS  
For kidney and bladder troubles take two or three doses of Buchu Kidney Pills a day to normalize the kidneys. It's a fine remedy, very easy to take, and a very safe remedy for any one. 50c boxes at Emmel's Drug Store.

**RAT CORN**  
Kills  
Rats & Mice

For sale by Steve Montalbano, Pitts Bridge, N. A. Stewart and M. H. James, Bryan; A. J. Edwards, Cawthorn; Goree Neelley, Wellborn; Felton O'Neil, Bryan.

## VILLA MARIA OPENED FOR 1917-18 SESSION

From Monday's Daily Eagle  
Villa Maria Ursuline academy opened for the 1917-18 session this morning, registered students and assigned lessons. The start was made with a fairly good registration of day students and eighteen boarding students registered, with more coming on every train. The sisters are looking forward to a good session. The girls who have taken up their residence at the academy are from Texas points exclusively, some from Galveston, Beaumont and other points in the state.

Dr. W. H. Lawrence dental office, top floor new City National bank building, phone 521.

ALLEN ACADEMY OPENING.  
From Tuesday's Daily Eagle  
Allen academy registered about sixty-five boys this morning which was the opening of the 1917-18 session of the institution. More boys are expected during the afternoon, night and tomorrow morning and these will swell the attendance to considerably above that of last year, it is expected. Nearly all military schools are experiencing an increased attendance this year. Recitations begin at the academy tomorrow.

## No. 666

This is a prescription prepared especially for MALARIA or CHILLS & FEVER. Five or six doses will break any case, and if taken then as a tonic the Fever will not return. It acts on the liver better than Calomel and does not gripe or sicken. 25c

## WANTED!

### Horses and Mules for U. S. Army

I am buying horses from 5 past to 9 years old, 15 to 16 1-4 hands high, 950 to 1300 pounds; no grays. Mules 5 past to 9 years old, 14 1-4 to 16 1-4 hands high, 950 to 1300 pounds weight. I will pay you all they are worth, according to grade.

See me at First National Bank. Phone 309.

**J. W. HUNICUTT**

You can make shaving a joy instead of a bother if you use our Soap, Toilet Water and Talcum. Come in and let us supply you with your "Shaving Stuff."

Make our Drug Store your store for all of the little "Drug Store Things" you use as well as for your Medicines. When you have a present to make come in and see what we have for gifts.

We want your drug store business; and when you deal with us you can "Rely" on what you buy.

**BRAZOS COUNTY FARMERS** will need  
all the seed milled in Brazos County  
for feed. See to it that your cotton seed  
are sold to The Bryan Cotton Oil & Fer-  
tilizer Company, a home institution.

We give liberal trade  
of hulls and meal for  
cotton seed. : : :

**BRYAN COTTON OIL AND  
FERTILIZER CO.**

"A HOME INSTITUTION"

# Cotton Oil Company Has Spent \$15,000 Making Betterments at Plant

In a full cotton season the Bryan Cotton Oil company is worth to the city close to \$42,000 a year. In a full season the plant crushes in the neighborhood of 7,000 tons of oil, and each ton nets the town about \$6 in the way of payrolls and other bills made here, and about \$2 is spent outside the town. It illustrates the value of a manufacturing plant to a town, a plant that produces something, or changes with the aid of extensive labor a natural product into a manufactured or finished product. Hence, the more factories that employ labor a town has the greater the total payroll and the larger the sum of money in circulation and the more people are attracted to the town and the more people there be the greater and more powerful will the city become in influence and all directions.

But this, having been the one abnormal cotton season in at least thirty years or longer, the oil mill will not be able to turn out 7,000 tons of oil, but instead of running through the full season is quite apt to shut down in six weeks, unless the top crop be as abnormal in its way as the drouth has been, and thus more seed be furnished. Furthermore, the seed this year, owing to the drouth conditions, is not turning out nearly the same quantity of oil per ton as usual, which cuts down the output. The fact that \$60 a ton is being paid for the seed does not have the effect of increasing the payroll, which is the big item for the town in a general way.

Manager J. Webb Howell states that the company has, during the summer, spent about \$15,000 in improvements, having placed orders for machinery months ahead. One of the single big items of expenditure was for a set of new boilers upon which he expected to save \$1,000 in fuel consumption on a full season's run, and that, too, with Leon county lignite at \$1.50 a ton delivered. The boilers are of a late type and sheathed in steel and so constructed that all the heat of the fireboxes goes where it is intended to go, that is, to the making of steam.

Another big investment was in

French press room machinery, considered by cotton oil men the latest word in the process of extracting the oil from the seed. The seed is first closely delinted and the linters sold largely to the powder makers. Even the sweepings are put through a machine for the purpose and cleaned and have their uses. The seed, after it passes the delinting machinery and the hulling and grinding machinery eventually reaches the steam cooker in the form of a coarse meal, and after going through a cooking process is transferred in the form of cakes to the presses, and under tremendous pressure the oil is pressed out, pinched out would perhaps better express the means of extraction. After the oil has been extracted the slabs are removed, the press cloths taken off by a machine built for the purpose and the cake is either sacked as such or ground into meal.

The oil is conveyed into tanks and from there pumped into tank cars or barrels, sent to refineries and made into cooking oil or converted into lard compounds. The linters go to the powder manufacturers, the hulls are sold readily on the local market for feed and the meal finds an outlet at home or abroad, some of it being used in the process of making cottonseed flour. Another improvement which the mill has made is the installation of the necessary machinery for handling peanuts. However, Manager Howell is not very hopeful of a profitable crop of peanuts this year, owing to the drouth and the tendency of the farmers to hurry their nuts to market before they are fully matured. Some have been offered this season at \$1.25 a bushel, the hulls of which were not well filled with nuts and the nuts not having accumulated sufficient of vegetable fats. Mr. Howell says that to produce really marketable peanuts the nuts should remain in the ground until October, and after being dug should be stacked in ricks and permitted to cure for thirty days.

HERBINE is the medicine that cures biliousness, malaria and constipation. The first dose makes you feel better, a few additional doses cures completely. Price 50c. Sold by M. H. James.

## News Letters from The Eagle's Rural Staff

Any community in Brazos county not represented in this department is welcome to join by securing a capable and reliable correspondent who will furnish a weekly letter. Write the Editor of the Eagle for particulars.

### Harvey

Harvey, Sept. 9.—Another good rain fell here Monday, which was acceptable to the cattle men as the other rain did not extend very far over the community.

Harvey is well represented by teachers in Wharton county this session. Misses Ruth Pate, Ruth Weeden, Arlie Dyess and Mrs. Bertha Turner left last week for Wharton to attend the institute.

George Davidson and Lloyd Dyess returned from San Antonio last week.

A faithful old mule that has plowed these rocky hills for over thirty years was gathered onto his fathers Monday afternoon at 2:30. A military burial was thought of but owing to the pressure of time on the farm it could not be carried out. He ate his breakfast as usual on the morning of his death and that afternoon was found peacefully sleeping. Old Pete is dead!

### Riverside

Riverside, Sept. 5.—The long spell of dry weather has at last been broken and we have had a series of fine small rains. We would still need more but there is sufficient moisture to enable the farmers to do some of their fall garden planting. Some of the people have their Irish potatoes already planted, also turnips, radishes, rape and lettuce.

There has not been much visiting going on as everyone was busy picking cotton. Now, however, most of the picking is over and people are making preparations to send their children to school as there is talk of the school in our community opening early this year.

Mrs. Joe Bangs is on the sick list. She is very low indeed. She has a trained nurse from Austin waiting on her.

Misses Bernadelta and Verna Tridel have returned to their home in Kurten after an extended visit to Mrs. Joe Regmund.

Mrs. Frank Kadanka and children have returned from Kurten where she attended a family reunion. All her brothers and sisters were present, having come from all parts of the state.

Quite a crowd of people from Smetana and Fountain communities were in Bryan Sunday at the S. P. J. T. Hall where a chapter of the Bohemian Red Cross of Brazos county was organized. The following officers were elected: President, Mrs. Hajek; vice president, Mrs. Frank Kadanka; Secretary, Mrs. Jno. Haborta; Treasurer, Mrs. Mary Valouch. Fifty-eight members were enrolled.

### Steep Hollow

Steep Hollow, Sept. 12.—Everything is looking like spring time over our way. Gardens are coming up nicely, the peanuts seem to have taken on a new lease of life and people are counting on a good top crop of cotton. Who knows but we may yet be able to invest in a Liberty Loan bond?

Roy Foster and Joe Barnett spent Sunday in Iola.

Lester Richey, wife and little son of Beaumont are visiting relatives in our community.

Mr. and Mrs. Jack Tobias of Wixon and Miss Lewis of Edge attended services here Sunday morning.

Mr. McMullan and Miss Besale Powers of Providence spent Sunday with Miss Annie Lou Lindsey.

Philip Hensarling and family of Bryan and Hank Buchanan and family of Kurten passed a pleasant day with Mr. and Mrs. R. L. Buchanan.

One of our popular young men has invented a popular mode of entertainment for the ladies. He carried two of them riding in his motorcycle Sunday afternoon. Everything passed off smoothly enough until it began to rain, the roads became sticky and his machine took the "on'ts." The only way out of the difficulty that presented itself was for one of the ladies to get out and help push while the other guided the machine. This suggestion was carried out and they soon found that they were making good time but they decided to abandon the motorcycle on reaching the first farm house.

Here they begged the use of a horse and buggy which carried them home in time for supper, to which they were prepared to do full justice.

### Harvey

Harvey, Sept. 12.—Mrs. Goen and daughter, Mamie, from San Marcos, are visiting relatives here this week.

Quite a number of our boys and girls will leave this week and next for various colleges and schools. Miss Vesta Pate goes to Huntsville, Miss Ardella Jones to C. I. A. at Denton, Miss Lily Davidson to Villa Maria, Bryan; Lester Goen and Charlie Pate will attend Bryan High school, Geo. Davidson returns to A. & M. this session. These, and the eight of our young people leaving as teachers, will be greatly missed in our social circles. The best wishes of our community go with them.

Fall gardens are in evidence everywhere since the rains, and the cotton fields are green with grass which will make fine pasture for the cattle this winter. The sudden transformation from brown and barren pastures a few weeks since to velvety carpets of green grass two inches high is wonderful.

We are sorry to lose our pastor, Rev. Newsom, who resigned on the first to teach school. He made many friends during his stay among us.

Christian Endeavor meets every Sunday at 8:30 p. m. We had quite a good audience last Sunday evening in spite of very threatening weather. A very interesting musical program was rendered. All are cordially invited to attend these services.

### Tabor

Tabor, Sept. 12.—The fall gardens are doing nicely. The young plants are growing rapidly.

All the schools in this district will open Monday, September 17. The holidays are over and the pupils and teachers are ready to go to work.

A farmers' meeting will be held at Tabor high school Friday night.

The Misses Andrews, who have been visiting Mrs. O. L. Wilcox, have returned to their home in Abilene.

A large crowd gathered at Cottonwood Sunday morning and Sunday evening to hear Rev. Smith deliver his message to his people.

Mr. and Mrs. Marvin Thompson visited in the Tabor community Sunday.

Yellow complexion, pimples and disfiguring blemishes on the face or body can be gotten rid of by doctoring the liver which is torpid. HERBINE is a powerful liver correctant. It purifies the system, stimulates the vital organs and puts the body in fine vigorous condition. Price 50c. Sold by M. H. James.

## CALOMEL SALIVATES AND MAKES YOU SICK

Acts Like Dynamite on a Sluggish Liver and You Lose a Day's Work.

There's no reason why a person should take sickening, salivating calomel when 50 cents buys a large bottle of Dodson's Liver Tone—a perfect substitute for calomel.

It is a pleasant, vegetable liquid which will start your liver just as surely as calomel, but it doesn't make you sick and can not salivate.

Children and grown folks can take Dodson's Liver Tone, because it is perfectly harmless.

Calomel is a dangerous drug. It is mercury and attacks your bones. Take a dose of nasty calomel today and you will feel weak, sick and nauseated tomorrow. Don't lose a day's work. Take a spoonful of Dodson's Liver Tone instead and you will wake up feeling great. No more biliousness, constipation, sluggishness, headache, coated tongue or sour stomach. Your druggist says if you don't find Dodson's Liver Tone acts better than horrible calomel your money is waiting for you.

## DISPOSITION OF MEN MADE BY EXEMPTION BOARD OF BRAZOS

The disposition made by the local board of the 150 extra men called by the local exemption board is given in the list below. It is possible that some changes will even be made in these lists, owing to the result of verbal understandings had with the district board by members of the local board who were in Houston Sunday. The district board has not yet reported on the first lists sent them, hence the local board cannot make up the second contingent for the fifteenth of this month until that report shall have been received.

### No Exemption Asked.

The following passed the physical examination, asked for no exemption and were excepted by the local board:

1160 Homer T. Mims, Bryan  
305 Haney Coner, Bryan  
1143 Anton H. Machos, Bryan  
1652 Henry C. Seals, Benchley  
1433 Wm. C. Petete, Bryan  
1640 Otto P. Seemann, Bryan  
1798 Hardy M. Todd, Bryan  
2071 C. L. McFerrin, Millican  
781 Henry Holubec, Kurten  
1035 Meette Lewis, Bryan  
958 Arthur Jackson, Bryan  
1776 Oliver C. Tucker, Bryan  
1554 Isaac E. Roberts, Wellborn  
1776 Oliver C. Tucker, Bryan  
1173 Timothy L. Mills, Bryan  
331 Ben Colbert, Navasota  
1881 James M. Wise Bryan  
1910 Robt. L. Watson, College  
1201 Jesse Mead, Steeles  
565 Buck Fridel, Bryan  
800 Henry Hilliard, Steeles  
1747 Joe Edward Spell, Bryan  
1447 Oscar B. Park, Bryan  
751 Ben Hanna, Bryan  
961 Eddie Johnson, Bryan  
562 Havi Flowers, Bryan  
102 Henry Booker, Allen Farm  
1979 Louis Wolfe, Steeles  
741 Ernest Henson, Tabor  
86 James Brown, College  
1024 Frank Lutz, Bryan  
1850 Douglas D. Vashinder, Bryan  
2013 Wm. Wooley, Wheelock  
978 Elbert E. Kilborn, College  
1260 Sidney McClenty, Bryan  
1901 Jesse Wade, Bryan  
1272 Walter B. McGregor, College  
1525 Elbert B. Reynolds, College  
877 Clifton Johnson, College  
681 Rufus Green, Bryan  
731 Jack Hayes, Bryan  
1929 Sam Williams, Millican  
450 John Davis, Steeles  
1390 Fayett Preston, Bryan  
112 Leslie Bookman, Bryan  
1658 Archie Stallings, Bryan  
1004 Fred W. Kazmeier, Bryan  
1604 John W. Steward, Bryan  
780 Otto L. Hahn, Kurten  
1550 Henry Regmund, Bryan  
940 Emmett Johnson, Bryan  
169 Clarence M. Bullock, Bryan  
1633 Fred Steward, Steeles  
989 Louis Koester, Cawthon  
1304 Luther M. McIntosh, Bryan  
1107 James Letheridge, Bryan  
1270 Samuel A. McMillan, College

Exemptions Not Allowed.

The following made claims for exemption, but these were not allowed by the local board:

441 Joe Dufureo, Stone City  
438 Jasper S. Dunlap, Dinkins  
501 Geo. (Col.) Elmore, Benchley  
506 Sam Emola, Bryan  
557 Roy Foster, Bryan  
808 Pinkney (Col.) Hawkins, Zack  
857 Berry L. Johnson, Bryan  
878 James (Col.) Jackson, Allen Farm  
880 Tom (Col.) Johnson, Allen Farm  
1108 Tony Lapaglia, Bryan  
1150 B. J. Mathews, Dinkins  
1254 Mike Messano, Bryan  
1303 Ulrich (Col.) McIntosh, Bryan  
1442 Will Prenalat, Tabor  
1478 Felix Rotello, Steeles  
1702 Hubert Schmidt, College  
1700 Joe Sosolik, College  
1660 Louis H. Sisco, Cawthon  
1975 Tomie (Col.) Williams, Bryan  
1971 Willis W. Wiles, Millican  
1997 Seth (Col.) Williams, Tabor  
1596 Marshal G. Sims, Millican

Exemption Claims Allowed.

The following made claims of exemption which were allowed by the local board:

23 Clarence D. Arnold, Wemora  
71 Ira R. Brownlee, College  
156 James W. Brown, Edge  
267 James Curry, Tabor  
396 Joseph Deutsch, College  
421 Samuel J. Denman, Bryan  
492 Garrett Edwards, Allen Farm  
567 Ben Ferratto, Bryan

## LINE UP FOR FOOD SUPPLY OF NATION

From Friday's Daily Eagle

A meeting of the district agents of the extension service of the Texas Agricultural and Mechanical college has been held at the college during yesterday and today with Assistant Director Walton. The purpose of the meeting is to carry out the provisions of the food control law enacted for the period of the war, and the feature with which the agents are particularly concerned deals with the bureau of which Hon. Clarence Onstey has charge. Mr. Onstey, according to President Bizzell, who has just returned from Washington and Canada, works harder than anybody in the department and is thoroughly enthused with his work and imbued with the importance of it. He will not be home until October, and then probably only for a brief time, as his work now is national in scope. His mother and wife are with him in Washington.

This meeting was in line with his work and was to prepare the agents to carry out the program of the agricultural department for the field work. A big drive is planned during September and October, in which the commissioners courts of Texas will be urged to do their bit in aiding in the stimulation, production and conservation of food, on the basis of sharing the expenses of the field work of the government.

SURGEONS agree that in cases of Cuts, Burns, Bruises and Wounds, the FIRST TREATMENT is most important. When an EFFICIENT antiseptic is applied promptly, there is no danger of infection and the wound begins to heal at once. For use on man or beast, BORAZONE is the IDEAL ANTISEPTIC and HEALING AGENT. Buy it now and be ready for an emergency. Price 25c, 50c, \$1.00 and \$1.50. Sold by M. H. James.

### Mrs. Stella Bulmansi Dead.

From Wednesday's Daily Eagle  
Mrs. Stella Bulmansi died at her home eight miles in the country, near the bottom, Monday and was buried from St. Joseph's Catholic church here yesterday morning at 10 o'clock. Rev. Father Gleissner officiating, with interment in Cavalry cemetery. She was born in Poland seventy years ago and came to this country with her husband forty years ago. He died about twenty years ago. Surviving her are four sons and two daughters, all grown.

When you have an aching, stretchy feeling any you are dull, tired and discouraged it is a sign of approaching malaria or chills. You should act quickly to ward off an attack. HERBINE offers you the help you need. It destroys the malarial germ, drives out all impurities and makes you feel bright, vigorous and cheerful. Price 50c. Sold by M. H. James.

622 Victor B. Graham, Bryan  
935 Jobe Jones, Edge  
862 Harrison Jones, Bryan  
963 Bohelme T. Konecney, Bryan  
1077 Henry B. Lloyd, Bryan  
1059 Louis Lero, Benchley  
1049 Lottie Louis, Dinkins  
1218 Ernest B. Moore, Edge  
1192 Sampson Mathews, Bryan  
1156 Horace Mallard, Cawthon  
1281 Rube McDonald, Edge  
1121 Chas. L. Murray, Bryan

### Rejected for Physical Reasons.

The following failed to pass the physical examination and were discharged:

435 John D. Dampier, Wellborn  
555 Gus Franklin, Millican  
1034 Chas. E. Lewis, Bryan  
1391 Jake Phillips, Bryan  
1571 Lee R. Rodgers, Bryan  
1634 Claude Steward, Zack  
1707 Wm. T. Smith, Millican

## CHANCES FOR GETTING THE EXALL MEMORIAL HIGHWAY THRO BRYAN

In working for the establishment of the Henry Exall Memorial highway north and south through Texas the route has not yet been designated and hence Bryan stands about as good chance of getting the highway as any other point. Two routes through central Texas are suggested, one going by way of Huntsville and the other by way of Bryan. The people along the Huntsville route are putting forth strong efforts to get the highway over there, but a movement, about equally as strong is pulling for the route through Bryan. This is particularly true of the people of Robertson county, who have formed an organization composed of the strongest men of the county and they are pushing the work with vigor.

At the last meeting of the Bryan commercial club directors the subject of this highway was brought up for discussion and was turned over to the highway committee. As Chairman Fountain or President Johnson were not able to go, Secretary Eberstadt was sent to the meeting Thursday at Franklin. Delegates from Bremond, Franklin and Wheelock were also there, and met with Secretary Franklin of the Henry Exall highway association. He stated that two routes are contemplated, one going by way of Huntsville to Houston and Galveston, and the other via Bremond, Franklin, Wheelock and Bryan, connecting here with the King trail. It was resolved that all counties interested should get up their data, which is to show the kind of roads they have now, the kind and number of bridges, the native material for the construction of roads, the amount of co-operation that might be expected from county judges and commissioners, whether the counties have engineers and whether the business men and people are interested and willing to co-operate.

In forming the organization in each county an advisory committee of eight is appointed with a particular view to selecting men from the rural communities who will be interested.

This data is to be sent to the headquarters of the highway association, and when it is all in and the counties organized a convention will be held at which the Texas highway commission will be present and the claims of the two routes formally presented. It is proposed to hold this convention in Bryan, as it will bring men from all up and down the state, and as the central portion of the state seems favorable to the proposition.

Secretary Eberstadt, speaking for Bryan and Brazos county, assured the delegates of our willingness to co-operate and explained to them that a good road runs into Bryan from Benchley.

Robertson county organized right there and will proceed immediately to get up the data, but owing to the fact that the county has a special road law, they did not know exactly what they will be able to do. Hence Brazos county must wait until they find what Robertson is able to do.

## Bryan Boys Arrived at Camp Travis O. K.

From Friday's Daily Eagle

Mr. and Mrs. J. M. Caldwell this afternoon received a note from their son, John Sealy Caldwell, one of the first eleven to go to Camp Travis under the draft. The letter is dated Sept. 5 and says: "Have just arrived at camp but do not know yet what my address will be, so will write you just as soon as I have been placed. All the boys are just as jolly as can be. We will probably be examined tomorrow and also shot in the back and arm. Camp Travis is about five miles from here, so there is very little chance of getting there often. Johnnie Hanway and I bunk side by side and have the coolest part of the shack."

### FLOW OF 2,500 BARRELS.

Goose Creek, Texas, September 11.—No. 12 Wight of the Gulf Production Company came in at a depth of 3,200 feet with an initial production of 2,500 barrels.

## LIFT YOUR CORNS OFF WITH FINGERS

Tells how to loosen a tender corn or callus so it lifts out without pain.

You reckless men and women who are pestered with corns and who have at least once a week invited an awful death from lockjaw or blood poison are now told by a Cincinnati authority to use a drug called freezone, which the moment a few drops are applied to any corn or callus the soreness is relieved and soon the entire corn or callus, root and all, lifts off with the fingers.

Freezone dries the moment it is applied, and simply shrivels the corn or callus without inflaming or even irritating the surrounding tissue or skin. A small bottle of freezone will cost very little at any of the drug stores, but will positively rid one's feet of every hard or soft corn or hardened callus. If your druggist hasn't any freezone he can get it at any wholesale drug house for you.—Adv.

We are still selling men's best quality Khaki work Pants at ..... \$1.00.

# DALY DRY GOODS CO.

## WE HAVE THE GOODS--LET US SHOW YOU

## FALL GARDENS IN TEXAS

By G. D. Everett, Vegetable Specialist, Extension Service A. and M. College.

The people of Texas should by all means have Fall Gardens this year. There have not been in the past so very many gardens planted in the fall in this state due to the facts that the weather is usually dry and vegetables have been so cheap that the fall gardens did not pay. Vegetables are going to be in demand this fall and winter because other foods are so high. The drought, which all the South has experienced this summer, has been one of the longest in many years. Money crops have been reduced nearly 50 per cent, and some are a total failure.

Meats will be high because the army has to have them and will pay a large price for them. Many men now in the army who seldom ate meat in their home will have to eat meat now in their rations or they cannot withstand the work they have to do. There are many who did not eat very much white bread, but are now having it in their regular rations in the army.

### Preparation of Land.

The Fall Garden should be started now, and some thought should be given to the spring garden. The land can be plowed or stirred for the Fall Garden it should be done now, but not too deep. Four or five inches is deep enough. This stirring of the land will prepare it so that all of the rain will be caught and the vegetation, such as weeds and grasses, which harbor insects and diseases will be destroyed. Where the land is too hard to break this vegetation should be destroyed with a hoe.

The soil should be plowed or stirred as soon after a rain as possible. Be sure not to plow or spade up more in one day than can be raked or harrowed during the same day. The clods of earth are easily broken when they are first turned up, but if left to become hard they make a poor seed bed, especially to the small gardens.

Where irrigation can be practiced, of course, it is necessary to wait for a rain. Most people irrigate too much and some not quite enough. Be sure that the soil (three or four inches under the surface) is kept damp enough so that when a ball of it is compressed in the hand the particles will stick together. It matters not how dry the top soil or surface is if the soil, where the roots are, is in the right condition.

### Time for Planting

There are many vegetables which can be grown in Texas during the fall and a few in the winter. The cool weather in the late fall and early winter is more favorable to most vegetables than the hot weather in late spring and early summer. In most parts of Texas, gardens should not be started until in the middle or last of September, due to the hot dry weather we usually have during this month.

### Varieties of Vegetables.

Group 1. Such vegetables as tomatoes, peppers, cabbage, cauliflower, brussels sprouts, egg plants, celery, lettuce, and onions give better results when they are transplanted. These should be planted about the middle of August in the cold frame or some place where they might be shaded during the hot noon and evenings and kept watered.

### Planting.

Group 2. Prepare the soil thoroughly so that the seed bed may be in the best physical condition. A five or ten cent package of each of the seed will be enough for the family's use. Plant the seeds from 1-2 to 1 inch deep in the drill, and in the rows about 4 to 5 inches apart. If the plants come up too thick in the drill thin them out. Transplant the plants in the garden as soon as they are 4 to 6 inches high. It is best to pull the lower leaves off the tomatoes, pepper and egg plants, and cut about 1-3 of the larger leaves off of the cabbage, cauliflower, brussels sprouts, celery and lettuce. About 1-3 or 1-2 of the onion tops should be cut off; also the same amount of the roots. Place all of the plants deeper than they originally were in the cold frame. It is best to plant in the cool of the evening and water if possible. Be sure the soil in the cold frame is damp so the plants can be pulled easily without breaking the roots. Cucumbers should be started in small boxes, 6 to 10 seeds in the box, and plant each box to the hill. Pieces of sacks sewed together so as to contain soil can be used. Place the sacked plant in the hill when plants are large enough. The sack will decay. Tomatoes should be planted 2 to 3 feet in the drill and drills 3 feet apart. Cabbage, cauliflower, and brussels sprouts 2 feet in the drill and in drills 3 feet apart. Pepper 19 inches in the drill and drills 2 and 2-3 feet apart. Cucumbers 4 to 5 feet apart each way. Egg plants 3 feet in the drill and drills 3 feet apart each way. Celery can be planted either 6 to 9 inches in the drills and drills 3 to 4 feet apart, or 7 inches in the drill and drills 7 inches apart. Lettuce 1 foot in the drill and drills 1-2 to 2 feet apart. Onions in drills 3 to 6 inches and in drills 14 to 20 inches apart.

The following vegetables should be planted in the open garden in the middle of the last part of September: Carrots, parsnips, salsify, swiss chard,

spinach, beets, pears or Chinese cabbage endive, radishes, mustard, rutabaga, kohlrabi, okra, onion sets and onion plants.

Swiss chard, pears of Chinese cabbage, and endive, should be thinned 12 to 15 inches in the drill and drills should be 2 feet apart. Carrots, parsnips, salsify, beets and rutabagas, 4 to 8 inches in the drill and drills 2 to 2-1/2 feet apart. Radishes 2 to 4 inches apart. Kohlrabi 4 to 6 inches in the drill and drills 18 to 24 inches apart. Beans, dwarf or bush, 8 inches apart in drills and drills 2 feet apart, pole 3 to 4 feet each way. English peas 2 to 4 inches in the drill and drills 2 to 3 feet apart. Field peas, such as the blackeye peas, and lady peas, 4 to 6 inches in the drill and drills 2 to 3 feet apart. Sweet corn 9 inches to 2 feet in the drill and drills 3 to 3-1/2 feet apart. Squash in drills 6 to 8 feet each way and 6 to 10 seed in the hill. Onion sets or onion plants, 3 to 6 inches in the drill and drills 18 to 20 inches apart. It is best to sow plenty of seed and then thin to the desired distances, than it is to have to resow the seed in the skips.

The leaves of swiss chard are cooked like spinach and the thick leaf stalk prepared like asparagus or used as celery. Pears or Chinese cabbage is excellent for greens. Endive is a salad plant, also used for garnishing. Carrots, parsnips, salsify, turnips, beets and rutabaga have thick roots which are eaten when cooked or pickled. Mustard, kale, rape and spinach are plants used for their leaves, which, when cooked, make an excellent dish. Kohlrabi is similar to the turnips. Cook the bulb with the skin on and then peel and fix like cabbage with cream. English peas need a moist, cool climate and will do well in fall. Squash may do better if started in little boxes of sacks in a cold-frame like cucumbers, but will make if planted in open field.

The fall season is so short that it would not be advisable to try and grow most vegetables in succession, but there are some vegetables, such as radishes, mustard, spinach, kohlrabi, kale and rape that may be planted in succession. Plant a small row of each every four or five days.

### Cultivation.

The soil of the garden should be cultivated every week or ten days after the seed are planted. The fall season is much prior than the spring season; so, as much water as possible should be prevented from escaping by evaporation, and cultivation is one of the best methods to use. This stirring of the soil changes the position of the particles causing capillary movement, of the water upward but keeps the moisture from evaporating as fast if it were not stirred so often. This frequent cultivation keeps down all weeds and grasses which tend to rob the plant of its food and water. If the garden is small the yard rake or hoe may be used to do the cultivating.

## WHEAT GROWING IN BRAZOS TO BE TRIED BY TABOR FARMERS

Tabor folks propose to make an effort to raise wheat. County Judge Maloney, when told of their intentions, said the drawback in the past to wheat growing in Brazos county has been rust, but he has recently received a rust remedy recipe which he supposes the college authorities also have that ought to enable them to produce enough to pay their flour bill for the year.

H. B. Killough and H. L. McKnight of the extension service of the college were at the Tabor meeting with County Agent Beason, and after a couple of rousing speeches, in which Mr. McKnight characterized the work as "community religion," a farmers club with over thirty members was organized. The following are the officers for the first term: Walter Armstrong, president; Charles Locke, vice president; Prof. Vance, secretary-treasurer.

The purpose of the club is to handle the marketing and buying problems and for community betterment generally. One of the things resolved upon was to make an effort to raise wheat and oats, at least for pasturage and for grain if it can be brought to maturity. This was done to provide winter feed and to aid in preventing the land from washing. In this connection the county council for defense has issued the following appeal to the farmers of the county on this wheat problem:

"Inasmuch as the wheat crop of the United States enters more extensively into the food supply of the world than any other country, it is of the utmost importance that we urge the planting of wheat this fall, so that we will be assured that the 1918 crop of wheat of the United States will be of sufficient proportion

## CASTORIA

For Infants and Children  
In Use For Over 30 Years

Always bears the Signature of *Wm. D. Gifford*

that it may meet any emergency in the great conflict in Europe, and that we will be assured of an ample supply of wheat bread in the event of crop failure in some other surplus wheat growing countries.

"It is, therefore, of the utmost importance that each county council stimulate the planting of wheat, so that our normal crop of 15,000,000 bushels per annum will be increased to at least 50,000,000 bushels per annum. In communities where there is not sufficient seed wheat to supply the demand, it is the duty of the financial and commercial institutions to make some arrangements for supplying this seed wheat.

"The member banks of the federal reserve system can avail themselves of aid which will be extended to them by the federal reserve bank of Dallas in financing their solvent customers, who desire aid in securing their seed wheat supplies.

"Inasmuch as the national congress has fixed a price below which wheat shall not go for 1918 at \$2.50 a bushel, we are assured a handsome profit on every bushel of wheat which we produce in 1918, and by increasing the growth of wheat we will not only enjoy this profit, but will perform a patriotic duty to our government."

**Chance to Market Cattle.**  
Central and Southern Texas has acres of hay, oats and Indian corn and will have an enormous surplus of this feed for consumption this fall. That country is bare of live stock.

We desire to get in touch with the owners of this country who may have surplus stock to sell to the people of Illinois, and thus complete a deal that will be favorable to both parties to the transaction. Those who wish to sell cattle should communicate with E. J. Fountain, chairman, or F. L. Henderson, secretary of the Brazos county council of defense.

A meeting is to be held at Steep Hollow tonight for the purpose of organizing another club.

Ring 42 and G. D. Tucker will sell you all kinds of feed cheap for cash.

## AMERICAN COLORS OVER VERDUN

Paris, Sept. 12.—The American colors now fly over Verdun. The flag is the gift of a prominent American Red Cross worker to the city and is hoisted over the ruin of the city hall.

## GAINED 12 POUNDS BY TAKING TANLAC

Dallas Man Recovers After Suffering For Fifteen Years.

"I have not only gotten rid of all my fifteen years of suffering by taking Tanlac, but I have actually gained twelve pounds in weight besides," said Hugh A. Long, 1820 North Pearl street, Dallas, Texas, a few days ago. Mr. Long has been a contracting painter in Dallas for many years and his standing and influence in that city are too well known to require further comment.

"I was troubled with my stomach for fifteen years," he continued, "and I reckon I had about all the miserable feelings anybody ever did from indigestion. But I'm simply feeling fine since taking Tanlac and my friends are talking about how well I look. I was constipated all the time, frequently had severe headaches, and the past five years especially, my stomach has been so weak and out of order I couldn't digest what I would eat and I would actually belch up my food sour and undigested. I never dared eat vegetables, as much as I like them, and the gas on my stomach would rise up around my heart and make it difficult at times for me to breathe. I was extremely nervous, hardly ever got a good night's sleep and had a tired, languid feeling all the time. I tried everything in the line of medicines and spent three months at the mineral wells in Texas without any improvement. In fact, I kept losing weight and strength until my condition became alarming and it looked like there was nothing made that would help me.

"One day I picked up a Dallas paper and read an endorsement for Tanlac given by a lady in Atlanta, Georgia, who was affected as I was. That's how I got started on Tanlac and I now feel like a brand-new man, out and out. I sleep sound as a dollar every night and get up in the mornings as fresh as a flower. My constipation and nervousness are gone and I never have any more headaches. I eat just anything I want now—vegetables and fruits—nothing is barred from my diet and everything agrees with me and my increase in weight shows the fine work Tanlac has done in correcting my troubles and building up my weak, run-down system. Yes, sir, these five bottles of Tanlac have done more for me than all the other treatment and medicines I ever took. In fact, nothing else ever did me, any permanent good, and I am writing my sister and brother to take Tanlac for I am confident it will help them too. Many of my friends are taking it—seeing what it has done for me and if anybody don't believe this statement, all they have to do is to see or write me."

Tanlac is sold in Bryan by N. A. Stewart, in Wellborn by J. P. Royder, in Edge by Moore and Payne, in Allen farm by Terrell brothers, and in Tabor by J. K. Presnal.

## PASTURAGE PLENTIFUL FOR CATTLE OF TEXAS

(By Associated Press)  
Austin, Sept. 11.—Advices have just been received here by the state department of agriculture from Louisiana and Arkansas to the effect that there are large tracts of pasture land in those states which is represented to be able to take care of many thousand head of cattle. Commissioner of Agriculture Davis stated that he will be pleased to give this information to cattle raisers, especially in the drought stricken western portion of Texas, who are making strenuous efforts to get their cattle to pasture and water.

The car shortage of Texas railroads is a serious menace to stockraisers who desire to ship their stock in order to save them from perishing, according to the railroad commission. The commission is doing all in its power to relieve this condition.

## Prohibition Election Petition Postponed

At the meeting of the Brazos county prohibition executive committee, at which were present a number of members from the country precincts, it was voted to postpone the presentation of a petition for an election until later. The war conditions at the moment, the announcement that a second liberty loan will be offered to our people as well as others throughout the nation next month and the further fact of local conditions, it was felt that better results would be obtained by postponement. The organization remains intact and will keep up its work steadily.

J. L. Edge,  
Acting Chairman of Committee.

## NOTICE IN PROBATE.

The State of Texas.

To the Sheriff or Any Constable of Brazos County, Greeting:

You are hereby commanded to cause to be posted for ten days, exclusive of the day of posting, before the return day hereof, in three of the most public places of your county, one of which shall be at the Court House door, and no two of which shall be in the same city or town, copies of the following notice:

### THE STATE OF TEXAS.

To all persons interested in the estate of D. W. Spence, deceased, has filed an application in the County Court of Brazos county, on the 13th day of July, 1917, for the probate of the last will and testament of said D. W. Spence, deceased, filed with said application and for letters testamentary of the estate of said D. W. Spence, deceased, which said application will be heard by said Court on the 15th day of October, 1917, at the Court House of said county, in Bryan, at which time all persons interested in said estate are required to appear and answer said application, should they desire to do so.

Herein fail not. But have you before said Court, on the first day of the next term thereof, this writ, with your return thereon, showing how you have executed the same.

Witness my hand and official seal, at Bryan, Texas, this 5th day of September, 1917. H. O. FERGUSON, Clerk County Court, Brazos County, Texas.

By T. C. Nunn, Jr., Deputy.  
I hereby certify that the above is a true copy of the original writ now in my hands. T. C. NUNN, Sheriff.

## RUB-MY-TISM

## "I'll Show You How Corns Peel Off!"

Ever Peel a Banana Skin? That's It! "I should worry about those corns if I just put some 'Gets-It' on. Corns used to pester the world into a frenzy, enduring pain, digging, slicing toes, tinkering with plasters

"Gets-It" Puts Your Feet in Clover—It Ends Corns Quickly, and tape, trying to fix a corn so it won't hurt. But now no one in the world should worry about corns, the moment you put "Gets-It" on. It means the end of a corn. There is nothing in the world like "Gets-It"—nothing as sure and certain—nothing that you can count on to take off a corn or callus every time, and without danger. The corn never grew that "Gets-It" will not get. It never irritates the flesh, never makes your toes sore. Just two drops of "Gets-It" and presto! the corn-pain vanishes. Shortly you can peel the corn right off with your finger and there you are—corn-free and happy with the toe as smooth and corn-free as your palm. Never happened before, did it? Guess not. Get a bottle of "Gets-It" today from any drug store, you need pay no more than 25c, or sent on receipt of price by E. Lawrence & Co., Chicago, Ill.

Sold in Bryan and recommended as the world's best corn remedy by E. J. Jenkins, M. H. James and N. A. Stewart.
